

PLC HARDWARE

EXCITING NEWS

We are thrilled to announce that PLC Hardware now offers a 3-year warranty on selected automation products, including Complete PLC Systems, Shoe box PLCs & HMIs. This extended warranty is a testament to our low return rate and our confidence in product quality and reliability.

PLC Hardware will provide a three-year warranty on the following hardware, provided the conditions outlined below are met.

PLC HARDWARE

Terms and Conditions

What is required to qualify for a three-year warranty?

Purchase and installation of a Phoenix Contact Power Supply & Surge protection module with the hardware mentioned below.

Complete PLC Systems

Small Modular PLCs

Fixed IO PLCs

HMI

Recommended Phoenix Contact Products:

Power Supplies

- **2904597** Primary-switched power supply unit QUINT POWER, Screw connection, DIN rail mounting, input: 1-phase, output: 24 V DC / 1.3 A.
- **2904598** Primary-switched power supply unit QUINT POWER, Screw connection, DIN rail. mounting, input: 1-phase, output: 24 V DC / 2.5 A
- **2904600** Primary-switched QUINT POWER power supply with free choice of output. characteristic curve, SFB (selective fuse breaking) technology, and NFC interface, input: 1-phase, output: 24 V DC/5 A.
- **2904601** Primary-switched QUINT POWER power supply with free choice of output characteristic curve, SFB (selective fuse breaking) technology, and NFC interface, input: 1-phase, output: 24 V DC/10 A.

Surge Protection

- **2907925** Type 3 surge protection, consisting of protective plug and base element, with integrated status indicator and remote signaling for single-phase power supply networks. Nominal voltage: 24 V AC/DC
- **2907927** Type 2/3 surge protection, consisting of protective plug and base element, with integrated status indicator and remote signaling for single-phase power supply networks. Nominal voltage: 120 V AC/DC
- **2907928** Type 2/3 surge protection, consisting of protective plug and base element with Push-in connection. For single-phase power supply network with integrated status indicator and remote signaling. Nominal voltage: 230 V AC/DC

Additional Notes

- Extended warranty does not apply to refurbished or obsolete products.
- Extended warranty will not apply to hardware that is incorrectly installed. The manufacturer's installation guidelines must be followed.
- [Link to general PLC installation guidelines.](#)
- Three year warranty will apply to remote IO that is part of a complete system order and that is also supplied and protected by Phoenix Contact Power Supplies and Surge Protection.
- Extended warranty does not apply to partial system orders.
- Extended warranty will not apply where the surge protection has been previously damaged due to lightning strikes or surges and hasn't been replaced.
- If a warranty claim is made, a photo of the installation must be provided, showing the surge protection and power supply in situ.
- It is recommended that the status output of the surge protection is monitored.
- PLC Hardware Main-line suppliers include;
 - Rockwell, Siemens, Schneider, Hitachi, Omron, Mitsubishi, Panasonic, GE & "SMART".
